EXPERIENCE

2024 – PRESENT DSV - GLOBAL TRANSPORT AND LOGISTICS – (REMOTE) POLAND IT DEVELOPER / BUSINESS SYSTEM ANALYST

Duties and Responsibilities:

- Develop, maintain, and enhance internal business applications supporting logistics and transport operations.
- Collaborate with stakeholders, product owners, and cross-functional teams to deliver scalable system solutions.
- Troubleshoot and resolve production issues, ensuring minimal system downtime.
- Document technical solutions, workflows, and system configurations.
- Participate in system design discussions and architectural decisions.
- Support system testing (unit, integration, UAT) and deployment activities.

2021 – 2023 NATIONAL HOUSING AUTHORITY – (FULLTIME) PHILIPPINES SYSTEM DEVELOPER

Duties and Responsibilities:

- Designed, developed, and maintained internal government information systems to support housing and resettlement programs.
- Built and enhanced web-based applications for beneficiary management, project monitoring, and reporting.
- Gathered and analyzed user requirements from different departments and translated them into technical solutions.
- Performed system testing, debugging, and performance optimization.
- Provided technical support and conducted user training for deployed systems.
- Supported deployment, maintenance, and continuous system improvements.

2019 – 2021 AUTOACCESS SALES AND SERVICES - (FULLTIME) PHILIPPINES IT WEB DEVELOPER

Duties and Responsibilities:

- Created responsive and user-friendly web interfaces to improve customer experience and brand visibility.
- Developed backend functionalities, including database management, form processing, and system integrations.
- Implemented performance optimization, basic SEO strategies, and security best practices.
- Coordinated with sales and marketing teams to support online campaigns and promotional activities.
- Managed website content, product catalogs, and service-related updates.
- Managed product listings, inventory modules, and service-related content on the website.

2017 – 2019	BAHRAIN FINANCIAL HARBOUR HOLDING COMPANY – (FULLTIME) BAHRAIN WEB DEVELOPER (PHP LARAVEL) Duties and Responsibilities: - Developed and maintained enterprise web applications using PHP (Laravel Framework). - Designed and implemented RESTful APIs and backend services to support internal and external systems. - Implemented authentication, authorization, and security best practices to ensure data protection. - Performed code reviews, debugging, and system performance tuning. - Provided ongoing system maintenance, enhancements, and technical support. - Designed and optimized MySQL database schemas, queries, and stored procedures for performance and scalability.
2015 – 2017	AL MOUJ MUSCAT – (FULLTIME) OMAN UI DESIGNER (FRONTEND) Duties and Responsibilities: - Built reusable frontend components using modern web technologies (HTML5, CSS3, JavaScript). - Designed and developed responsive, user-centered web interfaces aligned with brand and UX standards. - Translated business and UX requirements into interactive UI designs and functional frontend components. - Ensured cross-browser compatibility and mobile responsiveness across devices and screen sizes. - Created wireframes, mockups, and prototypes to visualize design concepts and user flows. - Maintained design consistency through style guides and component libraries.
